**only for RST, required WBL and F47

***only for High Country

****prices subject to change based on full truck load

The vehicles include the visible components of the Super Cruise system, such as the steering wheel, light bar, and control switch. However, the Super Cruise function itself is not active, as this technology is not compatible with European roads. From time to time, customers may see messages in the instrument display indicating that an OnStar subscription is required to use Super Cruise. Since OnStar services are not available for these vehicles, the system cannot be activated. When the vehicle is started, it may automatically search for an OnStar connection and ask the customer to enter related information
